Allowable Subject Matter

1. Claims 1-4 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not teach an antenna having two contacts, where the first contact is connected to a radiating element, and the second contact is connected to a conductive grounding member as defined in claim 1. Claims 2-4 are patentable by virtue of their dependency on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gerard Raguenet and Frederic Magnin (US 5434581) is cited to show antenna structure consisting of substrate, grounding layer, radiating layer and two contacts, however lacking a contact connected to the radiating layer.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Angela M. Lie whose telephone number is 571-272-8445. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Don Wong can be reached on 571-272-1834. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
